The FATF has also issued an updated statement on its on-going process to improve global AML/CFT compliance. This statement provides information on a list of jurisdictions that have committed to action plans to address and strengthen their respective AML/CFT deficiencies. FATF requests that members consider the information for the specified countries as part of their AML/CFT assessments and related actions.

In addition, the FATF provides information on jurisdictions that are no longer subject to the FATF's on-going global AML/CFT compliance process.
